## FOCA Elert - December 2018

### Environmental Update: Save the ECO

On November 15, 2018, the Ontario Government introduced sudden plans to eliminate the office of the **Environmental Commissioner of Ontario (ECO)**. The ECO is our environmental watchdog, supporting public participation through the Environmental Registry, as well as government accountability for decisions that affect our environment, now and into the future.

FOCA opposes the elimination of the office of the ECO, and has written to the Premier and party leaders. [Read FOCA's letter](#). (PDF, 2 pgs)

*On the day of the announcement, ECO Dianne Saxe spoke in Peterborough about protected spaces*

**Now, we need you to add your voice.** Help us show the government how much Ontarians care about the environment.

What you can do:

1. Add your name to the online petition <http://www.greenprosperity.ca/eco/>, which has already grown to more than 4,000 names. You will see many of your lake association peers on this list.
2. Tell your Ontario MPP you oppose the elimination of the office of the ECO. Find links to your MPP, here: <https://represent.opennorth.ca/demo/>, and echo the wording in FOCA's letter to the Premier.
3. Share this information widely with others in your lake association, with colleagues, family, and friends.

Thank you to everyone who has already copied [president@foca.on.ca](mailto:president@foca.on.ca) on your messages! Keep up the good work.

**NOTE: Today we learned that the Ontario Legislature will vote this Bill (#57) this Thursday, December 6th. Please reply as soon as possible.**

## Policy Updates

### Ontario Environment Plan Released

On November 29th, the Province of Ontario proposed their new environment plan, which is available for review and comment on the Environmental Registry of Ontario (ERO) [by clicking here](#). Public comment will be received until January 28, 2019.

### Cormorant Hunt Proposal

On November 20th, the Province of Ontario posted to the Environmental Registry plans to list the double-crested cormorant as a game bird and to establish a hunting season from March 15 to December 31 each year. Public comment will be received until January 3, 2019. [Click here to read the ERO posting](#).

Read more on the developing debate about the proposed cormorant hunt, in [this article](#) from the Hamilton Spectator.

## Governmental Affairs

### Municipal Term Begins

Following the Ontario Municipal elections in October, Councils are being sworn-in across the Province this week. **These will be our municipal leaders for the next four years**, delivering some of our most valued public services including roads, policing, land use planning, bylaw development and enforcement. Find out more about the Municipal level of government, here:

<https://foca.on.ca/municipal-government-partners/>.

**FOCA notes:** your new Council is about to set its Municipal budget, which has an impact on your annual property taxes. For more, visit:

<https://foca.on.ca/getting-involved-in-local-budget-setting/>.

**AMÖPEN**  
Association of Municipalities of Ontario

Municipalities - All 2  
Based on Municipalities LAG-2  
This map provides the Municipal Boundary layer.

### Survey: Connecting with Municipal Leaders

**FOCA wants to know:** Does your lake or road association border one or perhaps several Townships/Municipalities? How do you engage with these partners? Do you have a success story to share? Please take a moment and add your voice to FOCA's newest survey about **Associations connecting with Municipal Partners**.

## Environmental Notices

### Forest Management Plans

Public comment is invited on the development of 2021-2031 Forest Management Plans (FMP) for both the [Bancroft-Minden](#) and the [Mazinaw-Lanark](#) forest management units. Click the names above to download each notice (PDF, 1 page each).

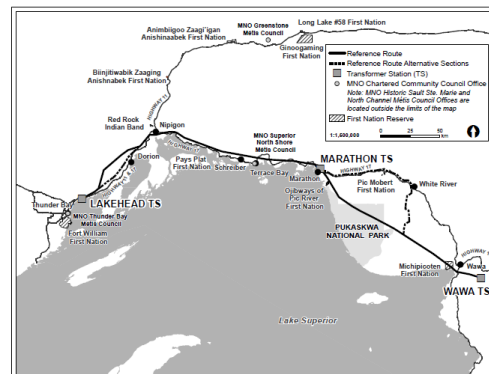

For more about why YOU should get involved in forest management planning in your region, visit: <https://foca.on.ca/using-our-forest-resources-sustainably/>.

In related news, FOCA has been asked to forward a notice from the Ministry of Natural Resources and Forestry - Bancroft District to recruit members for **Local Citizens Committees for Crown Forest Management** for each of the Bancroft-Minden and Mazinaw-Lanark forest management units. For an outline of the volunteer commitments and how to apply, [click here](#). (PDF, 2 pages)

### Lake Superior Link Environmental Assessment

Dec.10-13, 2018 at various north shore Lake Superior locations. Hydro One has released a Notice of Commencement, and has announced a series of community information centres along the project route for the Lake Superior Link transmission project. Find details, meeting locations, dates and times [by clicking here](#) (PDF, 2 pages).

## Invasive Species Corner

### Preventing the Spread of Asian Carps

The U.S. Corp of Army Engineers has revealed new plans (and revised associated cost estimates) to keep Asian carps out of the Great Lakes, in an attempt to protect the region's \$7-billion fishing industry.

[Read the update from CBC News](#) (Nov.29, 2018).

### Are you confused with carp?

Common carp is already present in southern Canadian waterways, but current efforts are intended to prevent four invasive species of Asian carps from entering the Great Lakes from the U.S.

Get more information and comparative images (such as the illustration at the side), here: <https://asiancarp.ca/ASIAN-CARPS/Confused-with-Carp>

## Economic Impact of WPO

### Ongoing Interest in FOCA's Report

FOCA's 2018 report on [The Role of Waterfront Property Owners \(WPO\) in Economic Development in Rural Ontario](#) is featured in the current November/December 2018 edition of the **Ontario Planning Journal** of the Ontario Professional Planners Institute. This issue is dedicated to rural Ontario, posing the question, "*What does planning mean outside large urban centres?*"

Download excerpts from the OPPI Journal, including the article about FOCA's report on the economic development potential of WPO in rural communities, [by clicking here](#). (PDF, 6 pages)

## Recent Events

### Kawartha Conservation Stewardship Strategy

November 19, 2018 - FOCA attended the first Advisory Committee meeting for a Stewardship Strategy for Kawartha Conservation (KC), to help align their programs with the needs and interests of the community. As part of the advisory committee, FOCA will assist with strategy development to facilitate the success of KC's [environmental stewardship initiatives](#).

### Community-Based Water Monitoring: A National Discussion

November 27-28, 2018 - Ottawa. FOCA participated in two days of roundtable discussions with water colleagues from across Canada. [The event](#) was convened by the Gordon Foundation, Living Lakes Canada and WWF Canada to bring together Ministry staff, scientists, funders, environmental and indigenous organizations to identify steps the federal government can take to support community-based water monitoring across Canada. FOCA contributed our experience, working with the Lake Partner Program of volunteer water monitoring (see more, below).

## Program Updates

### Lake Partner Program

Our lakes and rivers may be going dormant under a cover of ice for the winter, but at the **Dorset Environmental Science Centre**, the Lake Partner Program team is already starting to think ahead to next year's water sampling! Winter is the time for preparing the hundreds of water sampling kits for mail-out across Ontario in the new year. (see picture)

Long-term LPP Coordinator Anna DeSellas is now on maternity leave until October 2019. We are happy to know that **Carmen Pereira** will be stepping in, beginning December 17th, to work with **Emily Shapiera**, our LPP Lake Stewardship Assistant, who continues to be your main contact for the LPP hotline and email.

*FOCA members know Carmen Pereira already, from her work with the Queen's U. algae study*

Find out more about this successful long-term water monitoring program, here:

<https://foca.on.ca/lake-partner-program-overview/>.

## Safety & Preparedness

### Precedent-Setting Ruling on the Canoe

On the one hand, FOCA was unsurprised by an Ontario court ruling on November 15, 2018 that a canoe is, indeed, a vessel. (In fact, we suspect our members would say it is one of the BEST vessels from which to enjoy Ontario's inland lakes and rivers...) However, in this case the question arose because of a lack of clarity in the Criminal Code of Canada about which water vessels are subject to impaired driving laws. Read more online, from Muskoka Region News, [by clicking here](#).

## Cade's Corner

Looking for another article for your Association's winter newsletter? Your work is done, thanks to our friends at **Cade Associates Insurance Brokers**, exclusive brokers of the [CottageFirst](#) insurance program underwritten by Travelers Canada!

[Click to download Winter Maintenance Tips](#) (PDF, 1 page) with information about your heating system, utilities, key supplies and equipment, and other winter safety measures.

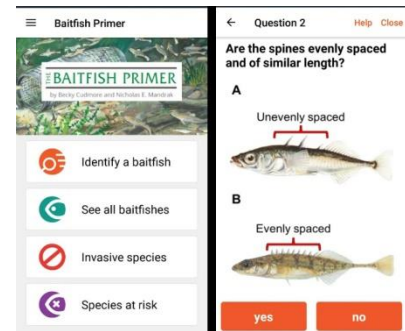

## Digital Development

### New DFO App to ID Invasive Baitfish

The [Baitfish Primer](#), a key guide from Fisheries and Oceans Canada, is now available as a free mobile app that allows recreational fishers to identify legal and illegal live bait. The new app has a unique ID tool that can be used by novices and experts alike to distinguish between baitfish. The app also allows users to report any aquatic invasive species to the Invading Species Hotline and the online tool, EDDMapS Ontario.

To download, search "**Baitfish Primer**" in your App store for [Apple](#) or [Android](#) devices.
