Subject: RE: Closure of the Minden Emergency Room - Urgent action required

Good Morning,

I would like to acknowledge receipt of your email to MPP Laurie Scott's Constituency Office.

Please see MPP Scott's statement below:

"I know that the decision to close Minden Emergency took us as a community off guard. In the wake of the announcement, the residents passionately conveyed their feelings. The hospital board does have the authority to make these decisions. I respect that. If the board chooses to reverse or delay, I will continue to work with them to explore all solutions. Alternatively, I will work with them, their stakeholders, partners, and the community to explore other health care opportunities."

Again, thank you for sharing your concerns. Your email has been documented and will be shared with MPP Scott.

Kind regards,

Constituency Office of Laurie Scott, MPP
